EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 12-15, and 19.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 12-15, and 19 directed to an invention non-elected without traverse. Accordingly, claims 12-15, and 19 have been cancelled.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/7/06 has been entered.

Response to Amendment

The amendment received 7/7/06 has been entered in full.

Response to Arguments

Applicant's arguments, see pages 9-13, filed 7/7/06, with respect to claims 1,3-9,11,16-18 have been fully considered and are persuasive. The rejection of claims 1,3-9,11, and 16-18 has been withdrawn.

Allowable Subject Matter

Claims 1,3-9,11, and 16-18 are allowed.

The following is an examiner's statement of reasons for allowance: As persuasively argued by the Applicant, none of the prior art discloses in combination with the other limitations of the claim a method for detecting an eye position from a face image including at least an eye area, the face image being taken under near infrared light, comprising the steps of performing brightness correction for part or the entire of the face image to increase the contrast between a sclera portion and an iris portion of the eye, generating an expression for conversion for histogram equalization using some of pixels in the part, the some pixels being a top A percent of the pixels in the part ranked according to a brightness gradient intensity where A is a predetermined value and performing histogram equalization for all pixels in the part using the generated expression for conversion. Thus claims 1 and 16 and their dependent claims 3-9,11, and 17-18 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
